

Doug Thompson, PhD

Doug Thompson, PhD, is a Director in the Analytics and Information Management (AIM) department of Health Care Services Corporation, based in Chicago, which operates Blue Cross Blue Shield plans in IL, NM, OK, and TX. He also does occasional part-time consulting for business and academic clients as a Consultant for Thompson Research Consulting LLC. Dr. Thompson has 12 years of experience using Base SAS, SAS/STAT, SAS/ETS, and EM. He has used SAS for statistical analyses in more than 30 peer-reviewed publications in medicine, public health, nutrition, and the social sciences. His experience includes work in clinical trials and health surveys; the telecommunications, insurance, and food industries; and consulting for Federal and state government clients.
