David Bruckner

David Bruckner is a Systems Project Leader for Kohler Co. working in Sales Operations for the Kitchen & Bath Americas Group. He has been using SAS Software since 1995. David is responsible for the information systems used within his business unit and has extensive experience with application development and reporting with an emphasis in Base SAS (Proc SQL, Data Step, Proc Summary, Proc Report and ODS destinations), SAS/Macro, SAS/Intrnet and SAS Stored Processes. David is also responsible for the administration and development for SAS Enterprise Business Intelligence Server used within his functional area.

David is involved with MidWest SAS Users Group (MWSUG) serving as Registrar since 2010 and volunteers as a Session Coordinator at SAS Global Forum (SGF) and the former SAS Users Group International (SUGI) since 2000.
